

Northview Academy

Kodak, Tennessee

Services Provided:

- **Subsurface Exploration**—soil test borings
geotechnical engineering
- **Construction Testing**—site preparation testing
foundation observation
field testing of concrete
masonry & structure steel
- **Laboratory Testing**—standard proctors
concrete compressive strength

Completed in 2013 Northview Academy consists of grades 7 through 12. The building is 160,000 square feet with several sports fields and facilities and planned future expansions. The projected cost is \$28 million.

ETS assisted the Board of Education during the site selection process. Three sites were evaluated during the selection process. ETS performed preliminary subsurface explorations, site reconnaissance, evaluation of sinkholes and assisted in projected cost for site preparation for each site.

ETS provided engineers and engineering technicians to observe site preparation and perform materials testing.

Client - Sevier County Board of Education, Mr. Marvin Harmon
